

MERE SCHOOL

Admissions Statement

The admission authority for Mere School is the LEA. Every year the LEA prepares and publishes information about admission arrangements and we base our admission arrangements on this. The LEA publishes details of their admission arrangements yearly and a prospectus containing information about admission arrangements. A copy of this guidance is available from the school office.

The Governing Body of Mere School:

- may comment on the LEA's admission arrangements when they are consulted each year.
- can ask the LEA to raise the admissions limit for the school, and ask the Secretary of State for a decision if they are not satisfied with the LEA's reply.
- must publish the admission arrangements for the school, and other information about the school, in the school prospectus.
- must meet the parents' choice of school, unless:
 - this would affect how effective the education provided is or how efficiently resources are used at the school.
